

BOSCH

Alternators & Starters

BOSCH Premium New and 100% Remanufactured

Whether remanufactured or new, BOSCH Alternators & Starters are 100% factory tested to ensure years of reliable performance, even under extremes of heat, cold and high demand. BOSCH units are specifically engineered and built to deliver the same or better starting and charging power as the original equipment units they replace. Every component used to build BOSCH Alternators & Starters are subject to the rigorous BOSCH Original Equipment quality standards.

Bosch Invented for Life™

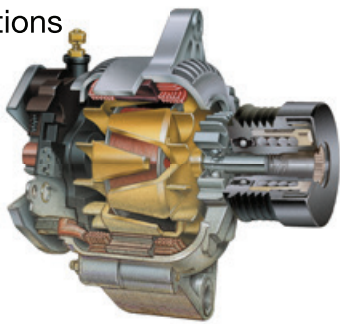

Tech Specs -

BOSCH Premium Alternators have:

- 100% New Bearings
- 100% New Springs & Rollers in Drives
- 100% New Bushing in Drivetrain
- 100% New Brushes
- 100% New Springs
- 100% New High Temp Solenoid Caps

Features

- Every Bosch remanufactured alternator is 100% full-loaded tested
- 100% tested solenoids
