

Timing Component Kits

New Gates Timing Kits are Top Choice with Customers

Gates is the only manufacturer approved by virtually every major OEM to provide timing belts for new engines. Now Gates has made it even better with timing kits that include their signature OE constructed timing belt, an OE quality water pump, tensioner and idler. Complete timing system replacement in one package that makes it possible to easily service the entire timing system. At Gates, the definition of quality is simple and straightforward -- "To meet or exceed customer expectations with products, services and experiences that are superior to the competition." Around the world, Gates operations meet the highest quality standards, including ISO and QS-9000.
