

QUALITY? WE'VE GOT IT 5 DIFFERENT WAYS!

***Our radiators are priced to move in
August thru September!***

	<p>BEHR radiator's reputation comes from their OE European background. BEHR radiators guarantee the same quality fit and performance as the OE radiator it replaces. The core is manufactured using high quality anti corrosive aluminum and fiber glass-reinforced polyamide coolant tanks that are highly resistant to cracking and deformation.</p>
	<p>CSF offers the widest variety of automotive radiator models servicing over 3,200 applications including every brand from Acura to Volkswagen. CSF delivers quality and with a great price point. CSF has you covered with the same materials and style as OE. CSF manufactures the highest quality aftermarket replacement radiators, with the strongest and most efficient components available in the industry.</p>
	<p>DENSO's radiator configurations, tanks, fin pitch, core dimensions and materials meet OE manufacturer's rigid standards. All DENSO radiators pass strict durability and function tests before leaving the factory. As a result, DENSO radiators deliver reliable performance even under the most demanding conditions. IMC has added 77 part numbers focused on Asian applications.</p>
	<p>Koyorad leads the radiator industry in quality, performance, fitment, and extensive list of vehicle applications. Koyorad's quality begins with the careful testing in the R&D department, then to manufacturing in privately owned ISO 9001 certified factories. When you buy a Koyo radiator, you will receive a component that has been engineered to the highest standards. Koyo is known for their extensive OE Asian applications.</p>
	<p>Nissens is the only supplier in the market to cover more than 75% of the aftermarket for automotive cooling and climate. All radiators come complete with caps, o-rings, screws, bolts, etc. for mounting, thus facilitating easy and unproblematic installation of the radiator. First Fit also means that one single type of radiator will fit into a number of different cars, which saves storage room and reduces the total of part numbers.</p>

***Now is a great time to check your stock of:
Hoses, Radiator caps, Thermostats, Expansion tanks & more!***
