

IMC's New Web Warehouse Truck Cut Off Alarm

Do you want to get parts on the next truck?
Did you get busy and forget to place the order?

Based on customer feedback IMC has developed an **option** to remind you that your IMC delivery truck is getting ready to leave the warehouse.

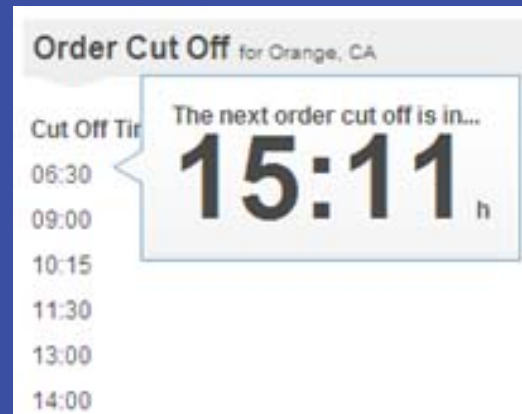

Introducing the IMC Web Warehouse Truck Cut Off Alarm

IMC Web Warehouse Truck Cut Off Alarm

The Truck Cut Off Alarm will:

- ...sound at either 5, 10 or 15 minutes prior to the order cut off time for your next delivery truck, this supports the visual cut off time reminder already in place:

- ...allow you to control if want the reminder to notify you before every truck cut off time or only if have items in your shopping cart
- choose your alarm sound from the selections provided

Delivery Truck Cut Off Alarm

These settings will control the Alarm for the Delivery Truck Order Cut Off

Alarm active? Yes No

Save Route Time Settings

To turn on the alarm click the Yes button

Copyright IMC, 2012 | [Help/Tutorials](#) | [Terms And Conditions](#) | [About Us](#) | [Contact Us](#)

The alarm default is non-active. The user must turn on the Truck Cut Off alarm for it to be active. Turning on the Truck Cut Off Alarm will generate a page of options (see next page).

This is the same step you would take if you want to turn the Truck Cut Off Alarm off. Select No and then the Save Route Time Settings button to turn off the Truck Cut Off Alarm.
